

Dr. Dean, Bushey

General Manager

Voyage Auto

dean@voyage.auto 813-465-1935

Dr. Bushey leads Voyage's deployment of Self-Driving vehicles in The Villages - Florida. Voyage's mission is to super-charge communities with self-driving vehicle technology, providing safe, reliable, and efficient mobility to residents. Dean leads and manages all phases of this operation, and serves as the senior business leader in the region. He is also an autonomous vehicle and smart city expert

and consultant to companies and communities.

With over 25 years of experience, Dr. Bushey has held numerous leadership positions in management, computer science, and education in business, academia, and as a Senior Officer in the Military. He has led international collations in treaty negotiations, autonomous systems and project management. Dean is also a Command Pilot, with over 4500 hours of aircraft command flight experience; including 1500 combat hours and instructor pilot qualifications and experience in 6 different aircraft.

Prior to joining Voyage, Dr. Bushey was Director of the Advanced Mobility Institute at Florida Polytechnic University, and Professor of Computer Science, where he conducted research in the next generation of automation, sensor enhancements, and communication/network technology for autonomous systems and self-driving vehicles.
